PROJECTS

my-portfolio, *Static site* - React | Tailwind | Vite

[GitHub](#) | [Website](#)

- **Personal Portfolio Website:** Showcases skills, projects, and background with **Tailwind CSS**, Sass, and custom animations.
- **Reusable Components:** Designed for animations and project galleries to enhance user experience.
- **Interactive Features:** Smooth navigation and engaging content, with ongoing updates—explore it live!

arcade_clone, *Dynamic Site* - React | Node | Express | Tailwind | SQL

[GitHub](#) | [Website](#)

- A **JavaScript challenge site** inspired by CodeSignal's Arcade Section, recreated core functionality and design within a tight three-week timeline, including isolated user code execution and infinite loop detection. (not an exact replica)
- **Secure Authentication:** Implemented JWT-based authentication to track progress and persist session data.
- **Live Demo & Documentation:** Fully documented with test credentials available (username: user, password: password). Note: Free deployment may cause a 50-second launch delay on Render.com.

rent-it, *Dynamic Site* - Next | Typescript | Tailwind | Prisma | Supabase

[GitHub](#) | [Website](#)

- Built with **Next.js**, **TypeScript**, and **Supabase**, offering property browsing, booking, feedback, and favorite saving for an intuitive user experience
- Integrated **Stripe** for seamless and secure checkout processes, ensuring reliability and trust for transactions
- **Admin Dashboard for Management:** Includes an admin interface for monitoring site statistics, managing property listings, and overseeing reservations efficiently.
