

Robert Toth-Ludanyi

Full Stack Web Developer | Software Engineer

Szurdokpuspoki, HU | Phone: +3670 / 431 9060 | Email: roberttothmails@yahoo.com | [GitHub](#) | [LinkedIn](#)

TECHNICAL SKILLS

Front End: React.js, Redux, Hooks, Context API, RTL, JavaScript, HTML, CSS, Vite, Tailwind

Back End: Node.js, Express, SQL, PostgreSQL, Jest, Docker, Git CLI, GitHub, VS Code, Vercel, Heroku, Render

Additional: Teamwork, Adaptability, Stress resistance, Prioritization, Time management, Deployment, Schema design, Normalization, Debugging, Clean code, DRY code

PROJECTS

my-portfolio, *Static site* - React | Tailwind | Vite

[GitHub](#) | [Website](#)

- Designed and developed a personal portfolio website to showcase my skills, projects, and professional background.
- Utilized **Tailwind CSS** for responsive design, along with **Sass** and plain **CSS** for custom animations.
- Created reusable components for animations and project gallery to enhance user experience and streamline development.
- Integrated smooth navigation and interactive content to provide an engaging and interactive interface.
- Continually integrating and adding new features; feel free to explore it live.

arcade_clone, *Dynamic Site* - React | Node | Express | Tailwind | SQL

[GitHub](#) | [Website](#)

- A **JavaScript challenge site** inspired by CodeSignal's Arcade Section, prompted by its planned discontinuation.
- Delivered the core functionality of the project within a **tight three-week deadline**, successfully implementing, securing, and thoroughly testing complex features.
- Recreated the core functionality of the original site, closely resembling its design and flow, though not an exact replica.
- Ensured user code runs in **isolation** to prevent performance issues, with particular attention to detecting infinite loops.
- Implemented **JWT-based user authentication** to securely track progress and persist data across sessions.
- Detailed documentation available; feel free to explore the live site using the provided test credentials. (username: **user**, password: **password**). Alternatively, you can register for a personal account if you prefer.
- **Please be patient**, as the site is hosted on Render.com and **may take up to 50 seconds to launch** due to being a free deployment.

EXPERIENCE

Freelance, *Remote* - Appen LTD / Spotcheck Auditor

2018- present

- Collaborating closely with a dedicated team to ensure the integrity and quality of data across a range of projects, utilizing best practices and thorough validation processes.
- Successfully achieving and maintaining an accuracy rate exceeding 90% through effective leadership and implementation of rigorous quality control measures.

EDUCATION

BloomTech *Full Stack Web Development Program*

2023 - present

Middlesex University, *Bachelor of Audio Engineering*

2016 - 2019
